

# CHICKEN RULES

**1. Always wash your hands after visiting the chicken run, house or chickens.**

You can use the antibacterial gel that is near the run, but you must always wash your hands properly with soap and water after leaving the garden.

**2. Don't touch the chickens**

**3. Don't give the chickens food.**

**4. Don't poke anything through the run.**

**5. Don't bang on the run or house**

Loud noises will scare them. You can talk to them or even copy chicken noises to speak 'chicken' to them.

**6. Enjoy having chickens in the garden!**
